

Collaborative Working Policy 2015

In order to assist Matt Durbin Associates in being a collaborative contractor, the following policy will aim to deal with any situations whereby Matt Durbin Associates are required to work with, or in close proximity to other Contractors.

Where Matt Durbin Associates are working for a Principal Contractor, the Principal Contractor will be given the opportunity to decide which Integrated Management System is to be used. Matt Durbin Associates will accept working to another company's systems and procedures as long as they are deemed to be equal to, or more rigorous than its own.

Where Matt Durbin Associates is not working for a Principal Contractor, we will follow our own Integrated Management System but will be happy to take any advice from the Client on amendments they would like to be made to suit the specific needs of the particular scheme.

When Matt Durbin Associates are working as part of a joint venture with another contractor/s, a combination of all contractors integrated management systems can be used or we will be happy for other contractors to use our system.

In order to meet the requirements of each individual Client or Employer, Matt Durbin Associates is happy to co-ordinate and co-operate with other entities that share the same enthusiasm for completing works safely to the highest possible standard of quality within the given time scale and budget.
