To Whom it may concern.

We, Somerset Highways, (Somerset County Council and WS Atkins), attest that Insituform Sewer Services, previously known as Sewer Services Limited, have successfully completed sewer renovation works for us in Somerset, UK, as follows:

Minehead Phase 1 culvert refurbishment (strengthen, install linings, refurbish 500m long town centre culvert carrying stream).

Minehead Phase 2 culvert refurbishment (strengthen, install linings, part replace, refurbish 300m long town centre culvert carrying stream).

Charlton House Culvert under road A361 at Shepton Mallet (twin plastic linings)

New cycleway tunnel at Bathpool, Taunton (shotcrete lining stabilisation works)

Culverts carrying River Sheppey under road A371 at Darshill, Shepton Mallet (strengthening and repair)

Splatt Lane Culvert, Sedgemoor (repair and strengthen confined space culvert)

Various sewer renovation contracts for strengthening, repair, and refurbishment using a variety of techniques, including, GRP linings, masonry repairs, sprayed concrete strengthening and repair, of sewers and culverts varying in size from 800 x 600mm to 2000 x 1500mm high.

These works have been carried out in the period from 1996 to 2003.

The total value of these works is about £900,000.

Sub contract works were minimal or nil.

All of the contracts were completed to time and budget for the billed works. Insituform Sewer Services have always been co-operative and proactive in resolving problems found during execution of the works and in the management of safety issues and working in public spaces.

Yours sincerely

Roland Kelly
